Hydrocarbon Processing

1973 Annual Editorial Index

Volume 52

Index reprints can be obtained by writing the Reprint Dept.

HYDROCARBON PROCESSING, Box 2608, Houston, Tx 77001

ABSORPTION
Azeotropic tower design by graph .....Jan. 109
New solvent to extract aromatics .....Mar. 91
NG/LNG/SNG Handbook .....Apr. 87
Recover aromatics with NFM .....Apr. 139
Extract styrene from pyrolysis gasoline May 141
Tying two extractors together .....June 91
Lube capacity in U.S. and Canada ....June 113
Match Isomar with Parex .....Sept. 173
Process cleans tail gases .....Oct. 95
Petrochemical Handbook .....Nov. 89
ACETIC ACID
Petrochemical Handbook .....Nov. 89
ACETONE
Make Cresols from propylene .....Aug. 89
Petrochemical Handbook .....Nov. 89
ACETYLENE
Petrochemical Handbook .....Nov. 89
ACID GASES
Quicker methane reforming designs ...Jan. 113
Developments in Claus catalysts .....Feb. 81
NG/LNG/SNG Handbook .....Apr. 87
Monitor Claus emissions .....May 120
Non-fossil fuels raise costs .....July 62
Filter DEA treating solution .....Aug. 95
Mix processes for sour gas .....Aug. 101
Shortcut to CO_2 solubility .....Aug. 107
CO_2-ethane system predictions .....Sept. 197
Process cleans tail gases .....Oct. 95
Petrochemical Handbook .....Nov. 89
ACROLEIN
Make acrolein from propylene .....Sept. 218
Petrochemical Handbook .....Nov. 89
ACRYLICS
Petrochemical Handbook .....Nov. 89
ACRYLONITRILE
Petrochemical Handbook .....Nov. 89
ADDITIVES
What additives do for gasoline .....Feb. 61
Water interface affects tests .....Feb. 75
How to recover desalter transformer oil Sept. 137
ADIP PROCESS
NG/LNG/SNG Handbook .....Apr. 87
ADSORPTION
NG/LNG/SNG Handbook .....Apr. 87
Adsorption makes isom better .....May 101
Petrochemical Handbook .....Nov. 89
ALCOHOLS
NG/LNG/SNG Handbook .....Apr. 87
Non-fossil fuels raise costs .....July 62
Methanol injection cuts costs .....Sept. 161
Petrochemical Handbook .....Nov. 89
ALDEHYDES
Tetraoxane: what you should know ...Apr. 159
Select best formaldehyde catalyst .....Sept. 179
Petrochemical Handbook .....Nov. 89
ALFOL PROCESS
Petrochemical Handbook .....Nov. 89
ALKAR PROCESS
Petrochemical Handbook .....Nov. 89
ALKAZID PROCESS
NL/LNG/SNG Handbook .....Apr. 87
ALKYLATION
NPRA's '72 panel views processes .....Apr. 143
Preliminary cost estimating .....Apr. 167
Make Cresols from propylene .....Aug. 89
To make alky feed and butadiene .....Sept. 119
Petrochemical Handbook .....Nov. 89
ALLOYS see METALS
AMINES
NG/LNG/SNG Handbook .....Apr. 87
Filter DEA treating solution .....Aug. 95
Petrochemical Handbook .....Nov. 89
AMMONIA
Ammonia converter design proved .....Apr. 165
NH_3 plant efficiency with turndown ....Oct. 127
Petrochemical Handbook .....Nov. 89
AMMONIUM NITRATE
Petrochemical Handbook .....Nov. 89
AMMOXIDATION
New route to terephthalic .....Sept. 209
Petrochemical Handbook .....Nov. 89
ANALYZING
Find leaks faster with ultrasonic leak detectors .....Jan. 73
What additives do for gasoline .....Feb. 61
Water interface affects tests .....Feb. 75
How stable is diesel in storage? .....Sept. 111
Analyzing heavy ends of crudes .....Sept. 123
Test for water in emulsions .....Sept. 177
ANILINE
Petrochemical Handbook .....Nov. 89
ANTIKNOCK RATING
What additives do for gasoline .....Feb. 61
Regenerate reformers continuously .....May 98
Adsorption makes isom better .....May 101
Tying two extractors together .....June 91
AROMATICS
New solvent to extract aromatics .....Mar. 91
Recover aromatics with NFM .....Apr. 139
Regenerate reformers continuously .....May 98
Extract styrene from pyrolysis gasoline .May 141
Tying two extractors together .....June 91
Make Cresols from propylene .....Aug. 89
Match Isomar with Parex .....Sept. 173
New route to terephthalic .....Sept. 209
Need higher volatility gasoline .....Oct. 113
Petrochemical Handbook .....Nov. 89
AROMEX PROCESS
New solvent to extract aromatics .....Mar. 91
Recover aromatics with NFM .....Apr. 139

BEARINGS see also SPECIFIC EQUIPMENT
You can predict ball and rolling bearing failures .....Jan. 85
Second NPRA panel on refinery maintenance .....June 85
BEAVON PROCESS
NG/LNG/SNG Handbook .....Apr. 87
BENFIELD PROCESS
NG/LNG/SNG Handbook .....Apr. 87
BENZENE
Recover aromatics with NFM .....Apr. 137
Petrochemical Handbook .....Nov. 89
BI-GAS PROCESS
NG/LNG/SNG Handbook .....Apr. 87
Petrochemical Handbook .....Nov. 89
BISPHENOL A
Petrochemical Handbook .....Nov. 89
BOILING POINT
Need higher volatility gasoline? .....Oct. 113
BUTADIENE
Make this new EDM copolymer .....May 153
To make alky feed and butadiene .....Sept. 119
Petrochemical Handbook .....Nov. 89
BUTANE
NG/LNG/SNG Handbook .....Apr. 87
To make alky feed and butadiene .....Sept. 119
Petrochemical Handbook .....Nov. 89
BUTENES
Convert butenes for high octane oligomers .....Apr. 171
To make alky feed and butadiene .....Sept. 119
Polybutylene—new isotactic polymer ...Oct. 129
Petrochemical Handbook .....Nov. 89

CAPROLACTAM
New caprolactam process .....Sept. 199
Petrochemical Handbook .....Nov. 89
CARBON BLACK
Petrochemical Handbook .....Nov. 89
CARBON OXIDES see ACID GASES
CATACARB PROCESS
NG/LNG/SNG Handbook .....Apr. 87
CATADIENE PROCESS
To make alky feed and butadiene .....Sept. 119
CATALYSTS
GASYNTHAN process for SNG .....Jan. 93
Developments in Claus catalysts .....Feb. 81
NPRA's '72 panel views processes .....Apr. 143
Ammonia converter design proved .....Apr. 165
Convert butenes for high octane oligomers .....Apr. 171
Regenerate reformers continuously .....May 98
Make this new EDM copolymer .....May 153
Make Cresols from propylene .....Aug. 89
Make chlorofluoroethanes direct .....Aug. 97
Make high-purity cyclopentene .....Aug. 105
Match Isomar with Parex .....Sept. 173
Select best formaldehyde catalyst .....Sept. 179
New route to terephthalic .....Sept. 209
Make acrolein from propylene .....Sept. 218
Polybutylene—new isotactic polymer ..Oct. 129
Petrochemical Handbook .....Nov. 89
SNG catalyst technology .....Dec. 91
CATALYTIC CRACKING
NPRA's '72 panel views processes .....Apr. 143
Power recovery cuts energy costs .....May 81
CAVITATION see PUMPS
CHLORINATION
This paraffin chlorination unit exploded .....Mar. 112
Make chlorofluoroethanes direct .....Aug. 97
Petrochemical Handbook .....Nov. 89
CLADDING see VESSELS
CLAUS PROCESS
Developments in Claus catalysts .....Feb. 81
NG/LNG/SNG Handbook .....Apr. 87
Monitor Claus emissions .....May 120
Mix processes for sour gas .....Aug. 101
Process cleans tail gases .....Oct. 95
CLEANAIR PROCESS
NG/LNG/SNG Handbook .....Apr. 87
COAL
NG/LNG/SNG Handbook .....Apr. 87
Realities of energy management .....July 54
COKING
NPRA's '72 panel views processes .....Apr. 143
How much spare heater for ethylene plants? .....May 147
COMBUSTION
What additives do for gasoline .....Feb. 61
Save energy at your heater .....July 119
COMPRESSORS
Compressor problems: causes and cures Jan. 77
How to measure piston rod motion on reciprocating compressors .....Jan. 81
Turbines using too much steam? .....July 99
Improve compressor reliability .....Sept. 165
A closer look at turbmachinery alignment .....Sept. 185
Evaluate air compressor intercoolers ...Oct. 107
New developments in hot gas expander compression systems .....Oct. 123
What to specify for gear unit reliability .....Dec. 53
High-speed gear failures—user experiences .....Dec. 54
Relationship of vibration to gear quality .....Dec. 56
AGMA views on shop testing and vendor required data .....Dec. 56
Testing can reduce gear failures .....Dec. 61
Shipping and installation specifications .....Dec. 66
COMPUTERS
How much tankage is enough? .....Aug. 75
COOLERS see HEAT TRANSFER
COPPER SWEETENING PROCESS
Treating jet fuel to meet specs .....Feb. 69
CORROSION
What additives do for gasoline .....Feb. 61
How to avoid alloy failures .....May 114
Refiners report longer life using ASTM A 669 tubes .....May 165
Second NPRA panel on refinery maintenance .....June 85
COSTS
Propylene oxide: how, where, who—future .....Jan. 99
Forecast capital spending better .....Jan. 151
Vinyl chloride: how, where, who—future .....Feb. 99
New solvent to extract aromatics .....Mar. 91
NG/LNG/SNG Handbook .....Apr. 87
Preliminary cost estimating .....Apr. 167
How to do post-installation appraisals Apr. 203
Power recovery cuts costs .....May 81
To make low-sulfur resids .....May 86
Desulfurize Kuwait reduced crude ....May 89
Pilot plant proves resid process .....May 93
Regenerate reformers continuously ....May 98
Adsorption makes isom better .....May 101
What will future refineries cost .....May 133
How energy costs affect petrochemicals May 137
We need a new environmental timetable July 53
Non-fossil fuels raise costs .....July 62
Save energy in plant operations .....July 67
Design plants to save energy .....July 71
Use fanless air coolers .....July 81
Optimize heat train design .....July 89
Which heat recovery system? .....July 109
Preheat process combustion air .....July 115
Tank insulation can pay off .....July 122
How much tankage is enough? .....Aug. 75
For more petrochemicals and fuels ....Sept. 116
To make alky feed and butadiene ....Sept. 119
Methanol injection cuts costs .....Sept. 161
Upgrade low-Btu gas .....Sept. 193
Get zero discharge with brine concentration .....Oct. 77
Process cleans tail gases .....Oct. 95
Tell the truth about petroleum profits Nov. 219
Petrochemical Handbook .....Nov. 89
CRACKING/CHEMICAL
NPRA's '72 panel views processes ....Apr. 143

How much spare heater for ethylene plants? ..... May 147
Which heat recovery system? ..... July 109
Petrochemical Handbook ..... Nov. 89
CRESOLS
Make Cresols from propylene ..... Aug. 89
CRG PROCESS
NG/LNG/SNG Handbook ..... Apr. 87
CRUDE OILS
Sour crude limits refining output ..... Sept. 107
Analyzing heavy ends of crudes ..... Sept. 123
Vacuum design vs. distillation ..... Dec. 71
CRYOGENICS see REFRIGERATION
CUMENE
Petrochemical Handbook ..... Nov. 89
CYCLOHEXANE
Petrochemical Handbook ..... Nov. 89
CYCLOHEXANONE
Petrochemical Handbook ..... Nov. 89
CYCLOPENTADIENE
Make high-purity cyclopentene ..... Aug. 105
CYCLOPENTENE
Make high-purity cyclopentene ..... Aug. 105

DEASPHALTING
Deasphalt to get feed for lubes ..... May 110
Lube capacity in U.S. and Canada ... June 113
DEHYDROGENATION
To make alky feed and butadiene ..... Sept. 119
DENITROGENATION
NG/LNG/SNG Handbook ..... Apr. 87
DESALTING
How to recover desalter transformer oil ..... Sept. 137
Get zero discharge with brine concentration ..... Oct. 77
DESULFURIZATION
NG/LNG/SNG Handbook ..... Apr. 87
To make low-sulfur resids ..... May 86
Desulfurize Kuwait reduced crude ..... May 89
Pilot plant proves resid process ..... May 93
Monitor Claus emissions ..... May 120
Mix processes for sour gas ..... Aug. 101
How Gulfining works for Daikyo oil . Sept. 131
Process cleans tail gases ..... Oct. 95
DEWAXING
Lube capacity in U.S. and Canada .... June 113
New route to better wax ..... Sept. 141
DILCHILL DEWAXING PROCESS
New route to better wax ..... Sept. 141
DIMETHYL TEREPHTHALATE
Petrochemical Handbook ..... Nov. 89
DISPERSION
Dispersion of LNG spills ..... May 105
DISTILLATION
Azeotropic tower design by graph .... Jan. 109
Distillation: real vs. theory ..... Mar. 93
NG/LNG/SNG Handbook ..... Apr. 87
Recover aromatics with NFM ..... Apr. 139
Extract styrene from pyrolysis gasoline May 141
Optimize heat train design ..... July 89
To hydrotreat waste lube oil ..... Sept. 134
Get zero discharge with brine concentration ..... Oct. 77
Vacuum design vs. distillation ..... Dec. 71
DOCTOR SWEETENING PROCESS
Treating jet fuel to meet specs. ..... Feb. 69
DRYING
Compressor problems: causes and cures Jan. 77
NG/LNG/SNG Handbook ..... Apr. 87
Petrochemical Handbook ..... Nov. 89
To measure moisture in a vapor ..... Nov. 215

ECONOMICS see COSTS
ELECTRIC EQUIPMENT
How to recover desalter transformer oil ..... Sept. 137
How to design a plant firewater system Oct. 103
How reliable is your high-pressure seal oil system? ..... Nov. 205
Barrier intrinsic safety ..... Dec. 111
ENTHALPY see THERMODYNAMICS
ENVIRONMENT
The night Virgil dreamed of "ecology" Jan. 145
Environmental-management resources .. Feb. 113
NG/LNG/SNG Handbook ..... Apr. 87
NPRA's '72 panel views processes .... Apr. 143
Monitor Claus emissions ..... May 120
We need a new environmental timetable July 53
Realities of energy management ..... July 54
Sour crude limits refining output ..... Sept. 107
To hydrotreat waste lube oil ..... Sept. 134
Test for water in emulsions ..... Sept. 177
Environment information sources ..... Oct. 71
Get zero discharge with brine concentration ..... Oct. 77
Data improves separator design ..... Oct. 81
Bio-oxidation process saves H_2O ..... Oct. 84
Predict plant noise problems ..... Oct. 89
Test for gas stream particulates ..... Oct. 92
Process cleans tail gases ..... Oct. 95
Can you measure odor? ..... Oct. 97
ELASTOMERS
Petrochemical Handbook ..... Nov. 89
ESTERS
Petrochemical Handbook ..... Nov. 89
ETHANE
NG/LNG/SNG Handbook ..... Apr. 87
CO_2-ethane system predictions ..... Sept. 197
Petrochemical Handbook ..... Nov. 89
ETHYL BENZENE
Petrochemical Handbook ..... Nov. 89
ETHYLATION
Petrochemical Handbook ..... Nov. 89
ETHYLENE
How much spare heater for ethylene plants? ..... May 147
Make this new EDM copolymer ..... May 153
Extruded furnace tubes for ethylene service ..... June 110
Which heat recovery system? ..... July 109
Make chlorofluoroethanes direct ..... Aug. 97
Petrochemical Handbook ..... Nov. 89
ETHYLENE OXIDE
Petrochemical Handbook ..... Nov. 89
ETHYNYLATION
Petrochemical Handbook ..... Nov. 89
EXTRACTION see ABSORPTION

FASTENERS
Nuts—how do you tighten them? .... Jan. 89
FILTRATION
NG/LNG/SNG Handbook ..... Apr. 87
Filter DEA treating solution ..... Aug. 95
FIRES see SAFETY
FLANGES see PIPING, VESSELS
FLUORINATION
Petrochemical Handbook ..... Nov. 89
FOAM
Fight LNG fires with foam ..... Oct. 165
FOUNDATIONS
How to specify better pump baseplates Sept. 157
Foundation design for pile supported tanks ..... Sept. 175
A closer look at turbomachinery alignment ..... Sept. 185
FURNACES
Furnace tubes resist overheating ..... Apr. 182
How much spare heater for ethylene plants? ..... May 147
Extruded furnace tubes for ethylene service ..... June 110
Preheat process combustion air ..... July 115
Save energy at your heater ..... July 119
Calculate reforming heat needs ..... Dec. 67

GASYNTHAN PROCESS
NG/LNG/SNG Handbook ..... Apr. 87
GEARS
Improve compressor reliability ..... Sept. 165
A closer look at turbomachinery alignment ..... Sept. 185
What to specify for gear unit reliability ..... Dec. 53
High-speed gear failures—user experiences ..... Dec. 54
Relationship of vibration to gear unit quality ..... Dec. 56
AGMA views on shop testing and vendor required data ..... Dec. 56
Testing can reduce gear failures..... Dec. 61
Shipping and installation specifications ..... Dec. 66
GIAMMARCO-VETROCOKE PROCESS
NG/LNG/SNG Handbook ..... Apr. 87
GLYCOLS
NG/LNG/SNG Hadbook ..... Apr. 87
Petrochemical Handbook ..... Nov. 89
GULFINING PROCESS
How Gulfining works for Daikyo Oil Sept. 131

HDS PROCESS
To make low-sulfur resids ..... May 86
HEAT EXCHANGERS see HEAT TRANSFER
HEAT TRANSFER
Predict nucleate boiling rates ..... Feb. 89
Practical repair welding (Part 3) .... Feb. 95
Prevent LNG "rollover" ..... Mar. 87
Shortcut to shell side heat transfer ... Apr. 155
Furnace tubes resist overheating ..... Apr. 182
Improve exchanger design ..... May 128
How much spare heater for ethylene plants? ..... May 147
Refiners report longer life using ASTM A 669 tubes ..... May 165
Indirect cooling system guards environment ..... June 116
Design plants to save energy ..... July 72
Use fanless air coolers ..... July 81
Optimize heat train design ..... July 89
Which heat recovery system? ..... July 109
Preheat process combustion air ..... July 115
Save energy at your heater ..... July 119
Tank insulation can pay off ..... July 122
New Route to better wax ..... Sept. 141
Get zero discharge with brine concentration ..... Oct. 77
Evaluate air compressor intercoolers .. Oct. 107
How reliable is your high pressure seal oil system? ..... Nov. 205
LNG terminal design ..... Nov. 211
Calculate reforming heat needs ..... Dec. 67
HELIUM
NG/LNG/SNG Handbook ..... Apr. 87
HYDRATION
Petrochemical Handbook ..... Nov. 89
HYDROCRACKING
NPRA's '72 panel views processes .... Apr. 143
HYDROGEN
Quicker methane reforming designs ... Jan. 113
NG/LNG/SNG Handbook ..... Apr. 87
Ammonia converter design proved .... Apr. 165
Non-fossil fuels raise costs ..... July 62
Make high-purity cyclopentene ..... Aug. 105
How Gulfining works for Daikyo Oil . Sept. 131
Petrochemical Handbook ..... Nov. 89
HYDROGEN CYANIDE
Petrochemical Handbook ..... Nov. 89
HYDROGEN SULFIDE see ACID GASES
HYDROGENATION
NG/LNG/SNG Handbook ..... Apr. 87
Lube capacity in U.S. and Canada ... June 113
Make high-purity cyclopentene ..... Aug. 105
Petrochemical Handbook ..... Nov. 89
HYDROTREATING
NPRA's '72 panel views processes .... Apr. 143
Preliminary cost estimating ..... Apr. 167
To make low-sulfur resids ..... May 86
Desulfurize Kuwait reduced crude .... May 89
Pilot plant proves resid process ..... May 93
Deasphalt to get feed for lubes ..... May 110
Lube capacity in U.S. and Canada .... June 113
How Gulfining works for Daikyo Oil .. Sept. 131
To hydrotreat waste lube oil ..... Sept. 134
HYGAS PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

INFORMATION RETRIEVAL see RETRIEVAL
INSTRUMENTATION
Which flow control: valve or pump? .. July 103
Improve compressor reliability ..... Sept. 165
How reliable is your high—pressure seal oil system? ..... Nov. 205
To measure moisture in a vapor ..... Nov. 215
INSULATION
Tank insulation can pay off ..... July 122
INVENTORIES
Second NPRA panel on refinery maintenance ..... June 85
Storage eases seasonal swings ..... Aug. 71
How much tankage is enough? ..... Aug. 75
Learn from HPI tank fires ..... Aug. 81
Underground versus surface storage ... Aug. 85
Sour crude limits refining output ..... Sept. 107
How stable is diesel in storage? ..... Sept. 111
For more petrochemicals and fuels.... Sept. 116
LNG terminal design ..... Nov. 211
ISOBUTENE
Petrochemical Handbook ..... Nov. 89
ISOHEXANE
Adsorption makes isom better ..... May 101
ISOMAR PROCESS
Match Isomar with Parex ..... Sept. 173
Petrochemical Handbook ..... Nov. 89
ISOMERIZATION
Adsorption makes isom better ..... May 101
Match Isomar with Parex ..... Sept. 173
Petrochemical Handbook ..... Nov. 89
ISOPENTANE
Adsorption makes isom better .... May 101

JGC-MRG PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

KETONES
Make Cresols from propylene ..... Aug. 89
New route to better wax ..... Sept. 141

LACTIC ACID
Petrochemical Handbook ..... Nov. 89
LEAKAGE
Find leaks faster with ultrasonic leak detectors ..... Jan. 73
LINING see VESSELS
LIQUEFIED NATURAL GAS (LNG)
Prevent LNG "rollover" ..... Mar. 87
NG/LNG/SNG Handbook ..... Apr. 87
Dispersion of LNG spills ..... May 105
LNG terminal design ..... Nov. 211
Fight LNG spill fires with dry chemicals Nov. 234
LIQUEFIED PETROLEUM GAS (LPG)
GASYNTHAN process for SNG ..... Apr. 87
NG/LNG/SNG Handbook ..... Apr. 87
LUBRICANTS
Compressor problems: causes and cures Jan. 77
Deasphalt to get feed for lubes ..... May 110
Second NPRA panel on refinery maintenance ..... June 85
Lube capacity in U.S. and Canada .. June 113
To hydrotreat waste lube oil ..... Sept. 134
Lube market getting tighter ..... Nov. 201
Vacuum design vs. distillation ..... Dec. 71

MAINTENANCE
An owner looks at a maintenance contract ..... Jan. 65
Practical repair welding (Part 1) ..... Jan. 68
Practical repair welding (Part 2) ..... Jan. 68
Find leaks faster with ultrasonic leak detectors ..... Jan. 73
Repair flange leaks onstream ..... Jan. 75
Compressor problems: causes and cures Jan. 77
How to measure piston rod motion on reciprocating compressors ..... Jan. 81
You can predict ball and roller bearing failures ..... Jan. 85
Nuts—how do you tighten them? ..... Jan. 89
Practical repair welding (Part 3) ..... Feb. 95
Second NPRA panel on refinery maintenance ..... June 85
Are your motors too hot? ..... Aug. 91
How to recover desalter transformer oil Sept. 137
How to specify better pump baseplates Sept. 157
Is that motor really overloaded? ..... Sept. 205
MALEIC ANHYDRIDE
Petrochemical Handbook ..... Nov. 89
MANAGEMENT
Off-the-job development ..... Jan. 159
Environmental-management resources .Feb. 113
The art of asking questions ..... Feb. 119
Engineers can't rite, write? Wrong! ... Mar. 105
Preliminary cost estimating ..... Apr. 167
Train foremen to listen methodically .. Apr. 195
How ARCO staffed and trained for a new refinery ..... May 123
How to manage your time better ..... May 179
Dow "Foreman's Academy" builds leaders ..... May 201
Make the best use of engineers ..... June 71
Will there be enough engineers tomorrow? ..... June 75
Build a "bootstrap" training program June 78
Try a modular approach to craft training ..... June 81

Second NPRA panel on refinery maintenance ..... June 85
Project managers should know OSHA June 135
Realities of energy management ..... July 54
World energy: what future? ..... July 57
Plan for energy conservation ..... July 65
Save energy in plant operations ..... July 67
Design plants to save energy ..... July 72
Put more reality into training ..... Aug. 123
Use your "people power" wisely ..... Aug. 125
Be ready for the manpower shortage .. Aug. 137
Train your people to innovate ..... Sept. 223
Enriched jobs increase profits ..... Sept. 228
Improve management-activity skills .... Sept. 235
Do your new people get good supervision? ..... Sept. 240
Predict plant noise problems ..... Oct. 89
Gulf trains managers for crisis ..... Oct. 135
What's ahead for management—to 2000 AD? ..... Oc 151
Do you manage "interfaces?" ..... Oc . 163
Tell the truth about petroleum profits Nov. 219
The co-op: new training trend? ..... Nov. 227
It's getting harder to reward good performance ..... Dec. 101
is an engineer a manager? ..... Dec. 107

MATERIALS HANDLING
For more petrochemicals and fuels ... Sept 116

MCR LIQUEFACTION PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

MERCAPTANS
NG/LNG/SNG Handbook ..... Apr. 87

MEROX PROCESS
Treating jet fuel to meet specs ..... Feb. 69

METALS
Furnace tubes resist overheating ..... Apr. 182
How to avoid alloy failures ..... May 114
Make this new EDM copolymer ..... May 153
Refiners report longer life using ASTM A 669 tubes ..... May 165
Extruded furnace tubes for ethylene service ..... June 110

METHANATION
GASYNTHAN process for SNG ..... Jan. 93
NG/LNG/SNG Handbook ..... Apr. 87
SNG catalyst technology ..... Dec. 91

METHANE
Quicker methane reforming designs .. Jan. 113
NG/LNG/SNG Handbook ..... Apr. 87

MOLECULAR SIEVES
Adsorption makes isom better ..... May 101
NG/LNG/SNG Handbook ..... Apr. 87

MOTORS
Pick motors by their "START" ..... Jan. 117
Power recovery cuts energy costs ..... May 81
Are you motors too hot? ..... Aug. 91
A closer look at turbomachinery alignment ..... Sept. 185
Is that motor really overloaded? ..... Sept. 205

NATURAL GASES
NG/LNG/SNG Handbook ..... Apr. 87
Plant peaks sulfur recovery ..... Apr. 135
Filter DEA treating solution ..... Aug. 95
Mix processes for sour gas ..... Aug. 101
Shortcut to CO_2 solubility ..... Aug. 107
Gas plant startup problems ..... Sept. 151
Methanol injection cuts costs ..... Sept. 161
Upgrade low-Btu gas ..... Sept. 193
NH_3 plant efficiency with turndown .... Oct. 127
Petrochemical Handbook ..... Nov. 89

NITRATION
Petrochemical Handbook ..... Nov. 89

NITRIC ACID
Petrochemical Handbook ..... Nov. 89

NITRILES
Petrochemical Handbook ..... Nov. 89

NITROSATION
New caprolactam process ..... Sept. 199

NOISE
Smooth piping cuts noise—fact or fiction? ..... Sept. 189
Predict plant noise problems ..... Oct. 89
AGMA views on shop testing and vendor required data ..... Dec. 56

OLEFINS
NG/LNG/SNG Handbook ..... Apr. 87
How much spare heater for ethylene plants? ..... May 147
Make this new EDM copolymer ..... May 153
Extruded furnace tubes for ethylene service ..... June 110
Which heat recovery system? ..... July 109
Make Cresols from propylene ..... Aug. 89
Make high-purity cyclopentene ..... Aug. 105
To make alky feed and butadiene ... Sept. 119
Make acrolein from propylene ..... Sept. 218
Petrochemical Handbook ..... Nov. 89

OLEX PROCESS
Petrochemical Handbook ..... Nov. 89

OLIGOMERIZATION
Convert butenes for high octane oligomers ..... Apr. 171

OXIDATION
NG/LNG/SNG Handbook ..... Apr. 87
Make Cresols from propylene ..... Aug. 89
Select best formaldehyde catalyst ..... Sept. 179
Make acrolein from propylene ..... Sept. 218
Petrochemical Handbook ..... Nov. 89

OXONATION
Petrochemical Handbook ..... Nov. 89

OXYCHLORINATION
Petrochemical Handbook ..... Nov. 89

OXYDEHYDROGENATION
Petrochemical Handbook ..... Nov. 89

PACOL PROCESS
Petrochemical Handbook ..... Nov. 89

PAREX PROCESS
Match Isomar with Parex ..... Sept. 173
Petrochemical Handbook ..... Nov. 89

PENTAERYTHRITOL
Petrochemical Handbook ..... Nov. 89

PENTANE
NG/LNG/SNG Handbook ..... Apr. 87

PHENOLS
Petrochemical Handbook ..... Nov. 89

PHTHALIC ANHYDRIDE
Petrochemical Handbook ..... Nov. 89

PIPING
Repair flange leaks onstream ..... Jan. 75
Size pump piping and components by nomograph ..... Mar. 81
Furnace tubes resist overheating ..... Apr. 182
How to avoid alloy failures ..... May 114
How much spare heater for ethylene plants? ..... May 147
Refiners report longer life using ASTM A 669 tubes ..... May 165
Extruded furnace tubes for ethylene service ..... June 110
Make plate to guide header flow ..... Sept. 178
A closer look at turbomachinery alignment ..... Sept. 185
Smooth piping cuts noise—fact or fiction? ..... Sept. 189
How to design a plant firewater system Oct. 103
Evaluate air compressor intercoolers .. Oct. 107
How reliable is your high-pressure seal oil system? ..... Nov. 205

POLLUTION see ENVIRONMENT

POLYACETALS
Petrochemical Handbook ..... Nov. 89

POLYESTER
Petrochemical Handbook ..... Nov. 89

POLYETHYLENE
Petrochemical Handbook ..... Nov. 89

POLYISOPRENE
Petrochemical Handbook ..... Nov. 89

POLYPROPYLENE
Petrochemical Handbook ..... Nov. 89

POLYSTYRENE
Petrochemical Handbook ..... Nov. 89

POLYVINYL CHLORIDE
Vinyl chloride: how, where, who—future ..... Feb. 99
Optimize PVC reactor ..... June 97

PRESSURE VESSELS see VESSELS

PRICO PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

PROPYLENE
Make Cresols from propylene ..... Aug. 89
Make acrolein from propylene ..... Sept. 218
Petrochemical Handbook ..... Nov. 89

PROPYLENE OXIDE
Propylene oxide: how, where, who—future ..... Jan. 99
Petrochemical Handbook ..... Nov. 89

PUMPS
Pick motors by their "START" ..... Jan. 117
Loop extends mechanical seal life ..... Jan. 123
How to prevent pump cavitation ..... May 157
Which flow control: valve or pump? .. July 103
How to specify, better pump baseplates Sept. 157
How to design a plant firewater system Oct. 103
How reliable is your high pressure seal oil system? ..... Nov. 205

PURISOL PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

RCD ISOMAX PROCESS
Desulfurize Kuwait reduced crude .... May 89

REACTORS
Special report: reactor design ..... Mar. 63
Ammonia converter design proved .... Apr. 165
Clad reactors improve heat transfer ... Aug. 117
Design reactors this way for liquid-phase processes ..... Dec. 73

RECTISOL PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

REFORMING
GASYNTHAN process for SNG ..... Jan. 93
Quicker methane reforming designs .... Jan. 113
NPRA's '72 panel views processes ..... Apr. 143
Preliminary cost estimating ..... Apr. 167
Regenerate reformers continuously .... May 98
Calculate reforming heat needs..... Dec. 67
Petrochemical Handbook ..... Nov. 89

REFRIGERATION
NG/LNG/SNG Handbook ..... Apr. 87
Shortcut to CO_2 solubility..... Aug. 107
Upgrade low-Btu gas ..... Sept. 193
CO_2-ethane system predictions ..... Sept. 197

RESIDUES
To make low-sulfur resids ..... May 86
Desulfurize Kuwait reduced crude ..... May 89
Pilot plant proves resid process ..... May 93
Deasphalt to get feed for lubes ..... May 110
Analyzing heavy ends of crudes ..... Sept. 123

RETRIEVAL
Who's publishing on fire and safety ... Jan. 128
Environmental-management resources .. Feb. 113

SAFETY
Who's publishing on fire and safety .. Jan. 128
This paraffin chlorination unit exploded Mar. 112
What's new in fire and safety training? Apr. 185
Dispersion of LNG spills ..... May 105
Plan safety for new refining facilities .. June 121
Project managers should know OSHA .. June 135
Learn from HPI tank fires ..... Aug. 81
Fight LNG fires with foam? ..... Oct. 165
Fight LNG spill fires with dry chemical? ..... Nov. 234
Barrier intrinsic safety ..... Dec. 111

SAMPLING
Test for water in emulsions ..... Sept. 177
Test for gas stream particulates ..... Oct. 92
To measure moisture in a vapor ..... Nov. 215

SCHEDULING
Improve management-activity skills ... Sept. 235

SCOT PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

SEALS
Repair flange leaks onstream ..... Jan. 75
Compressor problems: causes and cures Jan. 77
Loop extends mechanical seal life ..... Jan. 123

SELEXOL PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

SETTELERS
Data improves separator design ..... Oct. 81

SIMEX PROCESS
Tying two extractors together ..... June 91

SITES
Sour crude limits refining output ..... Sept. 107
For more petrochemicals and fuels .... Sept. 116

SMOKE POINT
Tying two extractors together ..... June 91

SNPA-DEA PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

SOLUBILITY
Shortcut to CO_2 solubility ..... Aug. 107

SOLVENT REFINING
New solvent to extract aromatics ..... Mar. 91
Deasphalt to get feed for lubes ..... May 110
Tying two extractors together ..... June 91

SPECIFICATIONS
Compressor problems: causes and cures Jan. 77
Treating jet fuel to meet specs ..... Feb. 69
Water interface affects tests ..... Feb. 75
Design plants to save energy ..... July 72
Improve your API tank specs ..... Aug. 79
How stable is diesel in storage? ..... Sept. 111
How to specify better pump baseplates Sept. 157
What to specify for gear unit reliability ..... Dec. 53
Relationship of vibration to gear quality ..... Dec. 56
Shipping and installation specifications Dec. 66

SPILL
Dispersion of LNG spills ..... May 105

STACKS
Which heat recovery system? ..... July 109
Test for gas stream particulates ..... Oct. 92

STORAGE see INVENTORIES, VESSELS

STRETFORD PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

STYRENE
Extract styrene from pyrolysis gasoline May 141
Petrochemical Handbook ..... Nov. 89

SUBSTITUTE NATURAL GAS (SNG)
GASYNTHAN process for SNG ..... Jan. 93
NG/LNG/SNG Handbook ..... Apr. 87
Petrocchemical Handbook ..... Nov. 89
SNG catalyst technology ..... Dec. 91

SULFINOL PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

SULFONATION
Petrochemical Handbook ..... Nov. 89

SULFREEN PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

SULFUR
Developments in Claus catalysts ..... Feb. 81
NG/LNG/SNG Handbook ..... Apr. 87
Plant peaks sulfur recovery ..... Apr. 135
To make low-sulfur resids ..... May 86
Desulfurize Kuwait reduced crude ..... May 89
Pilot plant proves resid process ..... May 93
Monitor Claus emissions ..... May 120
Mix processes for sour gas ..... Aug. 101
Sour crude limits refining output ..... Sept. 107

SULFUR OXIDES see ACID GASES

SYNTHANE PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

TAKAHAX PROCESS
NG/LNG/SNG Handbook ..... Apr. 87

TEREPHTHALIC ACID
New route to terephthalic ..... Sept. 209
Petrochemical Handbook ..... Nov. 89

TETRAOXANE
Tetraoxane: what you should know ... Apr. 159

THERMODYNAMICS
Quicker methane reforming designs ... Jan. 113
Applied hydrocarbon thermodynamics (Part 47) ..... Mar. 95
Applied hydrocarbon thermodynamics (Part 48) ..... Apr. 175
Applied hydrocarbon thermodynamics (Part 49) ..... May 169
Applied hydrocarbon thermodynamics (Part 50) ..... June 101
Applied hydrocarbon thermodynamics (Part 51) ..... July 123
Applied hydrocarbon thermodynamics (Part 52) ..... Aug. 109
CO_2-ethane system predictions ..... Sept. 197
Calculate reforming heat needs ..... Dec. 67

TIP PROCESS
Adsorption makes isom better ..... May 101

TOLUENE
Make Cresols from propylene ..... Aug. 89
Petrochemical Handbook ..... Nov. 89

TRAINING
Off-the-job development ..... Jan. 159
Train foremen to listen methodically .. Apr. 1
How ARCO staffed and trained for a new refinery ..... May 123
Dow "Foreman's Academy" builds leaders ..... May 201
Fire-fighting course slated for July .... May 206
Build a "bootstrap" training program June 78
Try a modular approach to craft training ..... June 81
Put more reality into training ..... Aug. 123

Use your "people" power wisely .....Aug. 125
Be ready for the manpower shortage ..Aug. 137
Train your people to innovate .....Sept. 223
Enriched jobs increase profits .....Sept. 228
Do your new people get good supervision? .....Sept. 240
Gulf trains managers for crisis .....Oct. 135
The co-op: new training trend? .....Nov. 227
Write your way to professional growth Dec. 97
It's getting harder to reward good performance .....Dec. 101

TRANSALKYLATION
Petrochemical Handbook .....Nov. 89

TRANSCAT PROCESS
Petrochemical Handbook .....Nov. 89

TREATING
Treating jet fuel to meet specs .....Feb. 69
NG/LNG/SNK Handbook .....Apr. 87
NPRA's '72 panel views process .....Apr. 143
Preliminary cost estimating .....Apr. 167
To make low-sulfur resids .....May 86
Desulfurize Kuwait reduced crude ....May 89
Pilot plant proves resid process .....May 93
Deasphalt to get feed for lubes .....May 110
Monitor Claus emissions .....May 120
Lube capacity in U.S. and Canada ....June 113
Filter DEA treating solution .....Aug. 95
Mix processes for sour gas .....Aug. 101
How Gulfining works for Daikyo Oil' ..Sept. 131
To hydrotreat waste lube oil .....Sept. 134
How to recover desalter transformer oil Sept. 137
New route to better wax .....Sept. 141
Get zero discharge with brine concentration .....Oct. 77
Data improves separator design .....Oct. 81
Bio oxidation process saves H_2O .....Oct. 84
Process cleans tail gases .....Oct. 95

TUBING see **PIPING**

TURBINES
Power recovery cuts energy costs ....May 81
Design plants to save energy .....July 72
Turboexpanders can recover energy ...July 93
Turbines using too much steam? .....July 99
A closer look aat turbomachinery alignment .....Sept. 185
How to design a plant firewater system Oct. 103
Evaluate air compressor intercoolers ..Oct. 107
New developments in hot gas expander compression systems .....Oct. 123
How reliable is your high pressure seal oil system? .....Nov. 205

ULTRAFINING PROCESS
Pilot plant proves resid process .....May 93

ULTRASONICS
Find leaks faster with ultrasonic leak detectors .....Jan. 73

UREA
Pertochemical Handbook .....Nov. 89

UTILITIES
Indirect cooling system guards environment .....June 116

VACUUM
Vacuum design vs. distillation .....Dec. 71

VALVES
Size pump piping and components by nomograph .....May 81
Which flow control: valve or pump? ...July 103
Smooth piping cuts noise—fact or fiction? Sept.189

VANADIUM
Make this new EDM copolymer .....May 153

VAPORIZATION
Dispersion of LNG spills .....May 105

VESSELS
Practical repair welding (Part 1) ....Jan. 68
Practical repair welding (Part 2) ....Jan. 68
Azeotropic tower design by graph .....Jan. 101
Practical repair welding (Part 3) .....Feb. 95
Prevent LNG "rollover" .....Mar. 87
Tank insulation can pay off .....July 122
Storage eases seasonal swings .....Aug. 71
How much tankage is enough? .....Aug. 75
Improve your API tanks specs .....Aug. 79
Learn from HPI tank fires .....Aug. 81
Underground versus surface storage ...Aug. 85
Clad reactors improve heat transfer ..Aug. 117
Foundation design for pile supported tanks .....Sept. 175
How to design plant firewater system Oct. 103
Vacuum design vs. distillation .....Dec. 71

VIBRATION
Compressor problems: causes and cures ..Jan. 77
You can predict ball and roller bearing failures .....Jan. 85
Second NPRA panel on refinery maintenance .....June 85
How to specify better pump baseplates Sept. 157
Improve compressor reliability .....Sept. 165
Relationship of vibration to gear quality .....Dec. 56
AGMA views on shop testing and vendor required data .....Dec. 56

VINYL ACETATE
Petrochemical Handbook .....Nov. 89

VINYL CHLORIDE
Vinyl chloride: how, where, who—future .....Feb. 99
Petrochemical Handbook .....Nov. 89

VOLATILITY
Need higher volatility gasoline? .....Oct. 113

WAXES
Lube capacity in U.S. and Canada ....June 113
New route to better wax .....Sept. 141

WELDING
Practical repair welding (Part 1) ....Jan. 68
Practical repair welding (Part 2) ....Jan. 68
Repair flange leaks onstream .....Jan. 75
Practical repair welding (Part 3) .....Feb. 95

W-L SO_2 RECOVERY PROCESS
NG/LNG/SNG Handbook .....Apr. 87

WRITING
Engineers can't rite, write? Wrong! ...Mar. 105

XYLENES
Match Isomar with Parex .....Sept. 173
New route to terephthalic .....Sept. 209
Petrochemical Handbook .....Nov. 89
